With shrinking revenues and growing demands, there is tremendous pressure on governmental entities. For more than 50 years, O'Sullivan Creel and its predecessor firms have provided auditing and consulting services that assist governments in becoming and remaining more efficient.

Based on our experience, we believe our governmental clients benefit from:

- Quality audited financial statements, especially given the current fiscal pressures impacting today's governments.
- A partnership with professionals who are experienced in government accounting to assist in financial statement preparation and ever-changing government accounting standards.
- Auditors who are well-versed in governmental auditing to ensure that management receives practical and implementable recommendations for improvements to the operations and financial position.

In addition to counties and cities, our client base includes special districts, water and sewer systems, bridge authorities and other agencies that receive state or federal funding whose audits fall under Government Audit Standards. In fact, 75 percent of citizens living from Escambia through Bay Counties live in a county audited by O'Sullivan Creel, LLP.

Our firm is a member of the AICPA Governmental Audit Quality Center. This firm-based voluntary membership center is designed to help with the challenges of performing quality audits in this unique and complex area. As a large firm, we believe in the benefits of specialization, and our team members belong to dedicated specialty groups within the firm. All team members are trained to become experts within their assigned specialty, allowing us to assemble a team of governmental (GAO Yellow Book qualified) auditors firm-wide consisting of approximately 35 members.

O'Sullivan Creel adheres to the highest industry standards and leverages our experience to deliver the work in an efficient, and productive manner. Now more than ever, at O'Sullivan Creel, we can supply governmental organizations with the reliable and practical advice they need to make the best decisions for the citizens they represent.
